MEMORANDUM FOR: Director of Central Intelligence

FROM : Robert W. Gambino
Director of Security

VIA : Deputy Director for Administration

SUBJECT : DCI Residential Security

1. The security modifications recommended for your residence in Washington, D. C. and your summer home at Kennebunkport, Maine have been completed and are considered to be satisfactory from the standpoint of providing a reasonable degree of physical protection and safety while in use, and an acceptable degree of assurance that an unauthorized entry does not occur without detection when either structure is vacant.

2. It is my personal and professional opinion that the equipment installed in both residences is justified for the purpose of providing a reasonable degree of physical security. We, in the Office of Security, feel that in addition to providing physical security and safety for the DCI, we must maintain an acceptable level of protection against technical penetration. Therefore, it is necessary to establish controls which would make an unauthorized entry both difficult to accomplish and difficult to conceal.

3. Since during the winter months you will be the principal beneficiary from the intrusion alarm system at Kennebunkport (as a deterrent to vandalism or burglary for example) it is suggested that you bear the expense of operating the system during the off-season. I would like to reiterate that the Office of Security personnel involved with the residential surveys, and I, have thoroughly reviewed the measures undertaken and believe the modifications provide a minimum acceptable level of security.

DCI

OS 6 4037

4. At some future date when the residential security systems are no longer required, a recommendation will be made for your consideration with regard to the disposal of these items. Depending upon the circumstances, there presumably will be several options available. Removal of all items and reestablishing the former appearance, or leaving everything in place at an agreed upon reimbursement cost, or some combination of payment and removal, are some of the possibilities that will be described for you in detail at the appropriate time.

5. I would like to take this opportunity to thank you for your personal cooperation with regard to the establishment of these security measures which are inconvenient for you personally, but which I feel are absolutely essential for the protection of the Director of Central Intelligence.
